PRODUCT UPDATE - FLP1 Ex d Lights Sub-assemblies and Ex Components Withdrawal from Sale

This notice is provided to advise customers that the sale of explosion protected sub-assemblies and components for the FLP1 range of Flameproof Lights has ceased.

Summary	
News Type	Product Update – Items withdrawn from sale
Purpose	To advise customers of items no longer available for purchase.
Product Range	Ex Sub-assemblies for the FLP1 Flameproof Light Fitting
Target Audience	Electrical Engineering Managers of Mines, Distributors, OEM's & RSF's (Registered Service Facilities)
Date of Issue	24 January 2017

Ex COMPONENTS & SUB-ASSEMBLIES WITHDRAWN FROM SALE

Legislation and Standards governing the manufacture, overhaul and repair of Ex certified product impose strict requirements on OEM's, RSF's and end users to ensure compliance. Critical aspects of compliance of the repair and overhaul of Ex certified product are conformance to certification conditions and traceability of all work undertaken.

There is significant legal liability and risk created when maintenance, repair and overhaul of FLP1 Ex d lights has been illegally or incorrectly performed and documented; where work is completed by non-authorized RSF's or by persons not recognised as competent.

To address this serious legal and regulatory risk, Ampcontrol Burn Brite will cease the sale of Ex components and sub-assemblies for FLP1 luminaires, effective immediately. The only spare parts available for FLP1 luminaires will be lamps, starters and the 'o' ring seal between boss and outer case.
